

Vandalism

Background

Clearly vandalism is something that as a Partnership we cannot tolerate. The loss of enforcement capability across the whole region due to damaged or stolen equipment is also unacceptable and although costly, these items must be replaced.

Policy

Remove damaged housings from roadside as soon as is practicable or securely bag the camera head if still in place.

Repair all minor damage at fixed camera sites.

Replace any damaged or stolen cameras to allow enforcement at current levels to continue.

Replace camera housings at the earliest opportunity and deploy mobile camera units as appropriate until the site is re-commissioned.
